ForgeSpaces

Secure and Seamless Client Collaboration

REDUCES THE RISK OF MIS-SHARING CLIENT DOCUMENTS.

Forge Spaces simplifies client collaboration and document sharing while reducing risk.

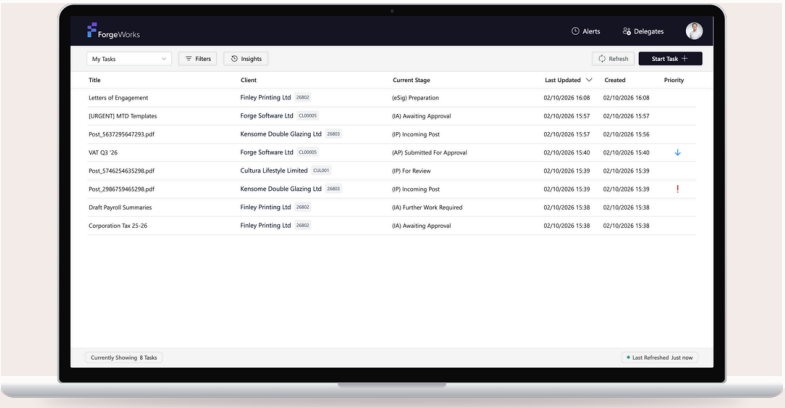

Share one or multiple documents in a single click with client contacts synched from your PMS/CRM. Set folder-specific permissions by user, manage notifications for internal and external users, and track version control of shared documents.

Why Forge Spaces?

- Share with contacts from your PMS
- Streamlines the fee earner experience
- Reduces the risk of missharing
- Collaborate from anywhere, any device

Key features

- Single-click sharing of documents
- Folder-specific permissions by user
- Internal and external notifications
- Version control of shared documents
- Request and track customer approvals

See how fast your branded portal can go live. Book a Forge Spaces demo today.
